

# Online Movie Ticketing Services World Market Segmentation and Major Players Analysis and Forecast to 2022

*Online Movie Ticketing Services Market Share (Material, Production, Geography) 2016 Analysis and Forecast to 2022*

PUNE, INDIA, September 16, 2016

/EINPresswire.com/ -- The Global [Online movie ticketing services](#) market is accounted for \$11.91 billion in 2014 and is poised to reach \$30.54 billion by 2022 growing at a CAGR of 12.49% during the forecast period 2014 to 2022. One of the key market drivers is substantial squash of digital 3D screens across the world for which ticket prices are more for a 3D film. Growing access of broadband pooled with mobile phones with online capabilities, contributed to the box office revenues, whereas the rising number of home theatres that generate theater-quality sound, getting that "theater experience" at home and the budding Netflix subscription rate is hampering the growth of the market. Moreover, lack of trust in online transactions is also expected to inhibit the market growth.
