

# Global Capsule endoscopy Market Trends, Growth, Major Key player's strategies Forecast to 2027

*Global Capsule endoscopy market Information, by material types (gastrointestinal (GI) disorder, small bowel disease, others) by applications - Forecast to 2027*

PUNE, MAHARASHTRA, INDIA,  
September 26, 2016 /

EINPresswire.com/ -- Study Objectives of [Capsule endoscopy Market](#):

- To provide detailed analysis of the market structure along with forecast for the next 10 years of the various segments and sub-segments of the Capsule endoscopy market
- To provide insights about factors affecting the market growth
- To analyze the Capsule endoscopy market based on various factors- price analysis, supply chain analysis, porters five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- Americas, Europe, Asia-Pacific, and Middle East & Africa.
- To provide country level analysis of the market with respect to the current market size and future prospective
- To provide country level analysis of the market for segments by type, by applications and its sub-segments.

The Major Key Players are Fujifilm Holding Corporation (Japan), Given Imaging Ltd./ Medtronic (Israel), Olympus America (U.S) IntroMedic Co. Ltd. (Korea), CapsoVision Inc. (U.S)"

*Market Research Future*

- To provide overview of key players and their strategic profiling in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the global Capsule endoscopy market

Intended Audience

- Capsule endoscopy manufacturers
- Capsule endoscopy Suppliers
- Contract Research Organizations (CROs)
- Research and Development (R&D) Companies
- Government Research Laboratories
- Independent Research Laboratories
- Government and Independent Regulatory Authorities
- Market Research and Consulting Service Providers
- Medical Research Laboratories
- Academic Medical Institutes and Universities
- Ample opportunity to cover the market by increasing the production capacity.

Taste the market data and market information presented through more than 50 market data tables and figures spread in 110 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "[Global Capsule endoscopy Market Research Report- Forecast To 2027](#)"

Market Synopsis of Capsule endoscopy Market:

Market Scenario:

Globally the market for capsule endoscopy is increasing rapidly. The major factor that derives the growth of capsule endoscopy is the increasing development in medical devices. Furthermore increasing use of digital technology in medical devices and increasing use of noninvasive techniques for various surgeries are increasing the growth of capsule endoscopy market. Globally the market for capsule endoscopy market is expected to grow at the rate of about XX% CAGR from 2016 to 2027.

[Global Micro-pump Market Research Report- Forecast To 2027](#)

Micro-pumps are essential components to controlling and modulating fluidic flow in microfluidic networks. They are responsible for generating temporal and volumetric fluid movement on-chip and are used to reduce the amount of external hardware necessary to operate a microfluidic device. They are used to move a liquid or gas (fluid) from one location to another. Inkjet printers, blood analyzers, and implantable insulin delivery systems are a few examples of where micro-pumps are currently used. Micro-pumps are being developed due to their reduced dimensions and can be used in vivo or internal to the pump. They also have the ability to handle extremely small volumes of liquid very efficiently.
