

Global Flight Navigation System Market 2016 Share, Trend, Segmentation and Forecast to 2022

Flight Navigation Market is valued at \$10 billion in 2014 and expected to grow at a compound annual growth rate (CAGR) of 7.61% reaching \$17.98 billion by 2022.

PUNE, INDIA, November 16, 2016 /EINPresswire.com/ -- [Global Flight Navigation Industry](#)
Global Flight Navigation Market is valued at \$10 billion in 2014 and expected to grow at a compound annual growth rate (CAGR) of 7.61% reaching \$17.98 billion by 2022. The growing demand for aircrafts across the globe and rise in the air traffic are driving the market growth. The increasing demand for accurate navigation and advancing technologies are also an added advantage to create business opportunities for the key players in this market. Efforts to lessen CO2 emission and environmental awareness are some of the prominent factors influencing this market.

The factors that are hampering the market growth include high costs, complexity of the systems, and their accuracy. GPS compatibility is also a considerable challenge for the growth of this market. However, fuel efficiency is expected to provide business opportunities for the existing as well as potential players in this market.

The global flight navigation market is segmented on product types, application, flight instrument and region. Depending on the Product type the market is segmented into two types namely flight navigation system and communication devices. Flight navigator system is further segmented into Radar, Hyperbolic Navigation System, GNSS, Instrument Landing System, Inertial Navigation System, VOR/DME, Automatic Direction Finder, Doppler Navigation System, Flight Management System and Heads up Display. Communication devices are categorized into Aircraft Communication Addressing and Reporting System, Automatic Dependent Surveillance, Portable Avoidance Collision System, Aircraft Transponders. By Application navigator market is segmented into Commercial and it is further divided into two types Fixed Wing, Rotary Wing.

The Flight instrument market is divided into Altimeter, Gyroscope, Autopilot, Magnetic Compass and Sensors. Gyroscope and it is further alienated into Attitude Gyro, Turn Rate Gyro and

Directional Gyro. Sensors segment is further segmented as Air Speed Indicator, Vertical Speed Indicator and Pitot tube.

What our report offers:

- Market share assessments for the regional and country level segments
- Market share analysis of the top industry players
- Strategic recommendations for the new entrants
- Market forecasts for a minimum of 8 years of all the mentioned segments, sub segments and the regional markets
- Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)
- Strategic recommendations in key business segments based on the market estimations
- Competitive landscaping mapping the key common trends
- Company profiling with detailed strategies, financials, and recent developments
- Supply chain trends mapping the latest technological advancements

About Us

Wise Guy Reports is part of the Wise Guy Consultants Pvt. Ltd. and offers premium progressive statistical surveying, market research reports, analysis & forecast data for industries and governments around the globe. Wise Guy Reports understand how essential statistical surveying information is for your organization or association. Therefore, we have associated with the top publishers and research firms all specialized in specific domains, ensuring you will receive the most reliable and up to date research data available.
