

Automotive Auto Dimming Mirror Global Market Size, Status, Share And Anlysis Forecast to 2021

Wiseguyreports.Com Publish New Market Research Report On-"Automotive Auto Dimming Mirror Global Market Size,Status,Share And Anlysis Forecast to 2021".

PUNE, INDIA, January 6, 2017 / EINPresswire.com/ --

Request a Sample Report @ https://www.wiseguyreports.com/sample-request/855000-global-automotive-auto-dimming-mirror-market-2017-2021

The analysts forecast the global automotive auto dimming mirrors market to grow at a CAGR of 5.3% during the period 2017-2021.

Dimming mirrors were initially introduced in fighter aircraft to reduce brightness and glare.

In the automotive industry, Gentex was credited for the introduction of the first electromechanical dimming rear-view mirror in 1982. The first electrochromic mirror was introduced in 1987 and soon gained popularity in the 1990s. Auto dimming mirrors reduce glare at night that can impair vision and are now a popular option in both high-end and economy cars. The glare from the headlights of trailing vehicles can pose a serious threat to safety, especially on dark, poorly lit roads. Auto dimming rear-view mirrors incorporate a sensor that can detect low ambient light from the headlights of trailing vehicles. The mirrors then automatically adjust to the glare.

Covered in this report

The report covers the present scenario and the growth prospects of the global automotive auto dimming mirrors market for 2017-2021. To calculate the market size, the report considers the revenue generated from the sales of automotive auto dimming mirrors.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The report, Global Automotive Auto Dimming Mirrors Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Gentex
- Magna International
- Samvardhana Motherson
- Ficosa
- Murakami

Complete Report Details @ https://www.wiseguyreports.com/reports/855000-global-automotive-auto-dimming-mirror-market-2017-2021

Other prominent vendors

- FLABEG
- Honda Lock Manufacturing
- Metagal Industria e Comercio
- Tokai Rika

Market driver

- Auto dimming mirrors coupled with many vision-based safety systems to enhance safety
- For a full, detailed list, view our report

Market challenge

- Preference for conventional mirrors
- For a full, detailed list, view our report

Market trend

- Growing focus on mid- and small-segment cars with advanced safety and convenience features
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?

Table of Contents

PART 01: Executive summary

PART 02: Scope of the report

- Market overview
- Top-vendor offerings

PART 03: Market research methodology

- Research methodology
- Economic indicators

PART 04: Introduction

- Key market highlights
- Overview
- Working of dimming mirror
- Value chain of auto dimming mirror system

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by product

- Global automotive rear-view auto dimming mirror market
- Market size and forecast
- Global automotive side view auto dimming mirror market
- Market size and forecast

PART 07: Geographic segmentation

- Automotive auto dimming mirror market in APAC
- Automotive auto dimming mirror market in Americas
- Automotive auto dimming mirror market in EMEA

PART 08: Market drivers

- Auto dimming mirrors coupled with many vision-based safety systems to enhance safety
- Advances in technology of mirrors laced with sensors and display modules

- Growing focus on mid- and small- segment cars with advanced safety and convenience features
- Increased investments in R&D
- Rising adoption in aftermarket

PART 09: Market challenges

- Functional and operational issues
- High cost of automotive electronic devices
- Preference for conventional mirrors

PART 10: Market trends

- Smart mirrors with advanced features
- Integration with other systems making dimming mirrors more viable
- Integration of radar, camera, and LED technologies increasing features of dimming mirrorContinued
