

Leading Intelligence, Surveillance, and Reconnaissance Conference; Airborne ISR, Now Open for Registration

SMi Group Reports: Registration Now Open for Airborne ISR 2017

LONDON, SELECT, UNITED KINGDOM, May 19, 2017 /EINPresswire.com/ -- SMi Group is pleased to announce that registration is open for the third annual Airborne ISR conference, taking place in London on the 25th and 26th October 2017.

In today's complex and ever changing operational environment, the demand for comprehensive situational awareness continues to grow. As a decisive and indispensable tool, [air based ISTAR](#) is increasingly relied upon to deliver this capability, allowing commanders to gain a thorough picture of the battle space and act accordingly.

This year's highly anticipated event returns to further explore the tactics and technologies at the forefront of ISR operations. The conference comes at a time of renewed importance, as ongoing coalition operations grow in both intensity and scope, an increased demand for information presents a unique set of questions to both the operator and the infrastructure supporting the ISR network.

New for 2017!

- Top-level U.S. representation including Keynote Address by: Brigadier General Peter Lambert, Director of Intelligence, Headquarters Air Combat Command, U.S. Air Force
- New nations represented, including New Zealand and Germany
- Updates on the development of NATO's key joint ISR platforms
- Key focuses: future capability development, ISR operations, ISR training and personnel development, NATO joint ISR and ISR research and development

Featured Topics Include:

1. Keynote Address: Coordinating Aerial Intelligence Doctrine and Architecture in Support of Shifting Operational Requirements
Brigadier General Peter Lambert, Director of Intelligence, Headquarters Air Combat Command, U.S. Air Force
2. Reintroducing Maritime Patrol Aircraft Capability into the British Armed Forces' Maritime Surveillance

Wing Commander Richard Berry, SO1 Capability Delivery P8A, Air Command, Royal Air Force

3. Current Requirements and ISR Response within the New Zealand Defence Force
