

# INCREASE YOUR CAR'S MPG INSTANTLY WITH THE ECOTRAINER

*Your car or truck's vacuum line gauge does not indicate if you are eco driving or not. Only the EcoTraineR does! Thomas Delor, inventor [www.ecotrainer.us](http://www.ecotrainer.us)*

SUGAR HILL, GA, USA, August 10, 2017 /EINPresswire.com/ -- It took 322 years to display the vehicle's INERTIA since Isaac Newton discovered it in 1655. Until then, the driver was blind and was guessing when to ease the accelerator pedal.

With the invention of the EcoTraineR, anyone can instantly be eco driving any car including electrical or hybrid. It's as easy as using the speedometer. As our limited offer to the first 250 drivers who are not sure that the EcoTraineR can help them eco driving, we will offer a one month (30 days) no cost and no risk to try the EcoTraineR on your own vehicle: If you do not save at least twenty percent fuel, return the EcoTraineR and we will reimburse the return cost as long as you return it before the end of the 30 day trial period.
