

# Crop Protection Pesticides - Global Industry Size, Share, Trends, Analysis and Forecast 2017 – 2021

---

*Wiseguyreports.Com Adds “Crop Protection Pesticides Market: Demand, Growth, Opportunities and Analysis of Top Key Player Forecast To 2021”*

PUNE, INDIA, September 15, 2017 /EINPresswire.com/ -- [Global Crop Protection Pesticides Industry](#)

Latest Report on Crop Protection Pesticides Market Global Analysis & 2021 Forecast Research Study

The Global Crop Protection Pesticides Market has been estimated at USD 70.00 Billion in 2016 and is projected to reach USD 90.62 Billion by 2021, at a CAGR of 5.3% during the forecast period from 2016 to 2021. Pesticides constitute the largest Share of the Crop Protection Pesticides, with Bio-pesticides accounting for a comparatively minute share. However, due to the environmental concerns regarding the use of synthetic pesticides, there is a great increase in the demand for eco-friendly bio-pesticides. Pesticides are most commonly used as plant protection products that protects plants from damaging influences such as weeds, plant diseases or insects. They constitute a class of agrochemicals used for preventing the destruction of crops by pests, diseases and weeds.

Increased crop yield and efficiency, growing demand for food safety & quality amidst the stringent regulation, demand for organic and completely natural foods and increasing awareness about pesticides that resulted in increased use of pesticides are driving the Global Crop Protection Pesticides Market. High costs of research and development, strict government regulation on pesticides residues on crops and reduced the credit access to the farmers because of various political and economic conditions of the nations are constraining the market growth globally.
