[Automotive Sensor Market 2017](#)

Sensors can be broadly defined as devices used to detect fluctuations/changes in the working environment, and initiate an appropriate & predefined output. Automotive sensors are sensors such as pressure, temperature, motion, and position sensors which are used across the key end-point applications within an automobile, viz. chassis, power train, and body system. The count of sensors used in automobiles has increased significantly, owing to the increasing demand of safety and environmental concerns both from the perspective of governmental agencies and consumers.

The market for global automotive sensors is projected to grow at a CAGR of about 8-9% during the forecast period.

Automotive sensors market Segments: The market has been majorly segmented on the basis of type which includes; temperature, pressure, motion, position, optical, gas, level, torque, and mass air flow sensors. The market has been categorized in terms of technology into Micro-Electro-Mechanical Systems (MEMS), Nano-Electro-Mechanical Systems (NEMS), and others. The market has also been segmented on the basis of vehicle types into low end, medium end, high end, heavy vehicle, and electrical vehicles.

Regional Analysis of Automotive Sensors Market: Globally, Asia-Pacific holds the largest share within the Automotive Sensors market. It has been experiencing rapid growth in the last two years owing to the stringent government regulations, compelling car designers to upgrade the safety provision in the car designs, thus giving a much needed thrust to the automotive sensor

market. North America is expected to be the second fastest market.

Key Players for Automotive Sensors Market: The key players profiled and analyzed in this market research report are Analog Devices Inc., Avago Technologies, Bosch Sensortech GmbH, Bourns Inc., Delphi Automotive LLP, Denso Corporation, GE Measurement & Control Solutions, Infineon Technologies, Micronas Semiconductor Inc., Panasonic Corporation, Sensata Technologies, TRW Automotive Inc., and Vishay Intertechnology.
