Vigilant Software makes free ISO27001 Cyber Security Resources available online

/EINPresswire.com/ Vigilant Software, the risk management solutions provider, has today released two free ISO27001 resources. The resources include a briefing paper on ISO 27001 Risk Assessment, and a free trial of the cyber security risk assessment tool vsRisk™. They aim to give organisations a head start in the fight against cybercrime and are available for a free download online at www.vigilantsoftware.co.uk/ISO27001-Risk-Assessment-Free-Resources.aspx.

Alan Calder, cyber security expert and Vigilant Software CEO, says "For organisations implementing the international standard for Information Security Management ISO27001, the risk assessment process is often the most difficult and complex aspect of the whole project, often requiring external assistance. These two free resources will help professionals to kick start their risk assessment and accelerate their implementation or compliance project."

The green paper and trial of vsRisk can be downloaded from www.vigilantsoftware.co.uk/ISO27001-Risk-Assessment-Free-Resources.aspx
