Ideal Weight Loss Colorado has two locations, one located in Highlands Ranch, and the other located in Broomfield. The clinic utilizes the Ideal Protein weight loss method in which people are able to lose three to seven pounds per week with physician support and one-on-one weight loss coaching. The Ideal Protein plan uses biogenic proteins to maintain lean muscle while forcing the body to burn fat. This ensures that weight loss is healthy and provides a maintenance program to help keep the weight off. The program is a safe way for patients to lose weight without the use of stimulants, laxatives or drugs.

At Dr. Casselman's Pinnacle Chiropractic and Spinal Rehab Center in Highlands Ranch, the focus is on freeing patients from pain. The clinic offers chiropractic adjustments, trigger point massage, myofascial release technique, traction and non-surgical spinal decompression. Many patients come to the clinic with chronic pain that their doctors have prescribed pain medication or surgery for. With Dr. Casselman's natural approach to pain relief, he is able to relieve pain, reverse the injury and reduce the need for invasive procedures such as surgery for herniated discs.

Pinnacle Chiropractic and Spinal Rehab Center is located at 4185 Wildcat Reserve Pkwy Suite 220 in Highlands Ranch, CO 80126.
