

# SKYTEX Unveils the New SKYPAD 7s (7") & 10s (10") Dual Core Android 4.2 Jelly Bean with GooglePlay

ONTARIO, CA, USA, November 12, 2013

/EINPresswire.com/ -- [SKYTEX](#) Technology, Inc. unveils the new SKYPAD [7s](#) and [10s](#) Android 4.2 Jelly Bean tablets with Dual Core Processor and GPU, Bluetooth, HDMI and GooglePlay. SKYPAD 7s and 10s have new pre-installed features and applications along with an extra 10GB of Free Cloud storage.

SKYTEX Technology, Inc., a U.S. based global supplier, developer and distributor of innovative mobile entertainment devices, introduces the next generation of SKYPAD tablets featuring GooglePlay. The new SKYPAD 7s and 10s are running on the latest Android 4.2 Jelly Bean operating system. Capitalizing on the legacy of previous SKYPADs, the new SKYPAD 7s and 10s boast a 1024x600 high resolution touchscreen that delivers stunning graphics with 5 points of contact on the 7s and 10 points of contact on the 10s allowing effortless navigation between pages and apps. Powered by a 1.2GHz Dual Core Processor that dramatically accelerates its performance on the tablet with 1GB DDR3 RAM and Dual Mali-400MP2 GPU which enhances the graphics, the SKYPAD 7s and 10s are extremely fast. The SKYPAD 7s and 10s allow many ways to connect to the web and other devices through Wi-Fi, Bluetooth, and HDMI. Both the 7s and 10s are Google Certified opening the door to over 1 million apps from GooglePlay. SKYTEX also developed its own App Store that is preloaded on the devices providing a suite with thousands of free apps to download. The SKYPAD 7s and 10s come pre-installed with a Setup Wizard and digital User Manual to help users get started up faster. SKYPAD 7s (MSRP \$179) and 10s (MSRP \$289) will be available soon at Walmart.com, Amazon, BestBuy.com, and other stores.

Quality, workmanship and enhanced performance separate the new SKYPAD 7s and 10 from the competition. The 1.2GHz Dual Core Processor and Mali-400MP2 GPU provide an excellent platform for multi-tasking, viewing 2D and 3D videos and utilizing the HDMI output that supports up to 2160p video playback for heightened gaming and video quality. Store and process data on 1GB DDR3 RAM and 8GB of on-board storage, with the ability to expand up to 32GB through the MicroSD Card slot. SKYTEX upgraded the 5GB free Cloud storage to 10GB free Cloud storage

making it easier and faster to access files, videos, and pictures on the go. Users can access GooglePlay with over 1 million apps along with optimized SKYPAD apps from the SKYTEX App Store including KIDO'z App featuring parental control with dual logins for the whole family to enjoy fun educational games and webpages safely.

The SKYPAD 7s and 10s come with Dual Cameras, VGA Front and 2MP Rear. Take beautiful pictures, record videos and build more intimate networks from long distance via video conferencing. Easily share files and connect with multiple Bluetooth enabled devices instantly with the built-in Bluetooth up to 30 feet away. The SKYPAD 7s and 10s are portable and fast making it easier to share and use anywhere.
