

EMCO High Voltage Corporation to Exhibit at SPIE Photonics West 2014 in San Francisco, California

This year, EMCO will showcase the CB Series, a line of miniature, regulated high voltage DC to DC converters.

SUTTER CREEK, CA, USA, January 6, 2014 /EINPresswire.com/ -- High voltage power supply designer and manufacturer [EMCO High Voltage Corporation](http://www.emcohighvoltage.com) will exhibit at SPIE Photonics West® from February 4 through 6 at the Moscone Center in San Francisco, California, booth 4927.

EMCO will highlight the company's new line of regulated DC to high voltage DC 10kV power supplies, the CB Series. The new CB Series is fully programmable via a 0 to +5V DAC compatible high impedance programming input voltage. It features current and voltage monitoring, built-in protection against programming overvoltage, and a temperature stability of better than 50 PPM/°C.

EMCO sales engineers will be on-hand to answer questions and discuss specific application requirements.

For more information about EMCO's CB Series of DC to HV DC converters, visit <http://www.emcohighvoltage.com/pdfs/cbseries.pdf>.

One of the largest, most well attended photonics and laser industry events, SPIE Photonics West is a platform for presenting the latest developments and technologies. This year, the organizer expects to host more than 20,000 attendees and 1,300 exhibitors from around the world. Visitors can attend a variety of technical sessions, exhibitions, industry panels, and networking events.

About EMCO High Voltage Corporation

For over four decades, EMCO High Voltage Corporation has been designing and manufacturing high voltage power supplies for a wide range of applications. The company is ISO 9001:2008 certified, all factories are UL inspected, many products are UL listed, and operators are certified to IPC J-STD-001. EMCO's dedication to quality and reliability has earned the company numerous awards, including Product of the Year from Electronic Products Magazine, Product of the Year from the University of California, Davis, and a Key Partner Award from the University of

Wisconsin for project ICECUBE. Products are available from stock in California and through EMCO's European stocking distributor, Condatas AG (<http://www.condatas.com>).
