

# 3D Pageflip Professional, the Only software to Turn PDF to Flipbook with 3D Multimedia Contents

/EINPresswire.com/ Different kinds of eBooks with page flip effect can be found anywhere online. However, a 3D one is not familiar for everyone. 3D Pageflip Professional, the only software to create flipbook with 3D effects in PDF pages, is now available for online or offline business!

Flipbook market is now mature. Different kinds of eBooks with page flip effect can be found anywhere online. It looks no fancy for such digital book. But now is different since 3DPageFlip Software shows us strong creation to integrate 3D vision in a flipbook! They delivered [flip book maker](#) called 3D PageFlip Standard and 3D PageFlip Professional a year ago and keep perfecting them for the entire year! The software became the only flipbook maker which can create 3D contents in the PDF pages. Now the latest version they released on Jan 4 becomes powerful with fantastic 3D effects like 3D panoramic background, 3D Video, 3D Image Sphere Gallery, 360 degree product show, etc! This software converts [PDF to flipbook](#) with ease and adds extra 3D effects in the document. Some of the uses of this software are creation of 3D newspapers, e-magazine, Business Brochures, Corporate Reports, Event Leaflets / Flyers, Annual Reports, Newsletters, Educational Books, Interactive Books, Sales Catalogues or any other type of multipage document for business or personal use.

How will it bring to readers? More than page turning effects and reading content. Everyone can easily flip page, drag book to rotate, even spin the eBook in 360 degree! It would not only include all the basic functions of an ordinary flash flipping book, but also lots of unique 3D objects embedded that other flipbook makers don't have. It is believed that this kind of 3D [page flip software](#) will secure the market very soon since it is the unique page flip software that has 3D effects.

As the CEO said, "It would be more powerful in the future to cater to more customers' needs!" He pointed out that everyone could give them suggestions to improve the quality of the page flip
