

# Thames Water to Share Case Study Insights from Smart Meter Roll Out

LONDON, LONDON, UNITED KINGDOM, March 19, 2014

[/EINPresswire.com/](http://EINPresswire.com/) -- Earlier this year, Thames Water kicked off a 15-year programme to roll out smart meters across its area starting in southeast London. In an article published in Utility Week, Steve Plumb, Head of Metering at Thames Water said "It's an industry first and the biggest customer-impacting project Thames has done."

Hear more from Thames Water at SMi's 3rd annual conference on [Smart Water Systems](http://www.smart-water-systems.com) taking place on 28th and 29th April in Central London. The case study driven presentation on day one led by Steve Plumb, will address solutions to a supply demand deficit, lessons learned, the roll out of progressive metering and Thames Water's fixed network metering trial.

The poster features a blue smart water meter on the left, with a digital display showing '000000' and '20 C'. To the right, the text reads: 'SMi present the 3rd annual conference on: Smart Water Systems', 'Marriott Hotel, Regents Park London, UK', and '28 - 29 APRIL 2014'. At the bottom, the website 'www.smart-water-systems.com' is listed. The background shows a splash of water.

Smart Water Systems 2014

Day two includes a unique insight from Kyle Robins, Wastewater Infrastructure Strategy Manager from Thames Water, who will be discussing retrofitting sustainable drainage in London with a focus on current pilot schemes, rain gardens, flow and depth loggers and stake holder engagement.

“

It's an industry first and the biggest customer-impacting project Thames has done”

*Steve Plumb*

Other key speakers include: Scottish Water, Vitens, Delta N.V, WaterBee, Energy Saving Trust plus many more.

The event will also host two post conference interactive
