

Combined Resources, Provider Of Independent Recycling Services In Chicago, Announces New Website

ADDISON, IL, USA, April 4, 2014 /EINPresswire.com/ -- Combined Resources, Inc., offering paper and plastic recycling in Chicago, has a new website. The new site is full of information on the company's [paper recycling in Chicago](#) as well as helpful information on reducing carbon footprints.

ADDISON, IL -- This March marks the launch of Combined Resources, Inc.'s new website. The Chicagoland recycling services company's new site can be viewed at www.combinedresources.us. The new site is full of useful information for both their clients and the general public.

[Combined Resources Inc.](#) provides independent recycling services to Chicago area businesses and organizations that want an alternative to their current system. The company leads in paper recycling in Chicago and works hard to improve their clients' recycling numbers with an ultimate goal of a zero percent landfill.

Web visitors will find that the new Combined Resources, Inc. website has plenty of information on their service offerings which include:

- Metal Recycling
- Paper Recycling
- Plastics Recycling
- Shredding

The company has a strong interest in managing waste to reduce their clients' environmental impacts and even carbon footprints. To aid in this effort, Combined Resources Inc. offers e-waste management and has made a free download available on the site, entitled "How to Reduce Your Carbon Footprint".

"When we undertook this website redesign we really wanted to create something that was different than what you'd expect from a recycling services company. We wanted to stand out and I think we've succeeded in this goal. Our website contains a lot of information on our services, of course, but we took it a step farther and have added tools and data that can help web visitors really start to think about the impact their waste has on their bottom line," said [Thomas](#)

[Woznicki](http://www.combinedresources.us/), Vice President, Combined Resources, Inc. (<http://www.combinedresources.us/>).

The new website features:

- A “Recycling Savings Calculator”.
- A “Request A Free Audit” online form that visitors can fill out while on the site.
- A blog, which will be continually updated with informational industry related topics.
- A Careers section, so candidates who are interested can apply and upload their resume directly through their website.

Combined Resources Inc. firmly believes that business waste, scrap and excess inventory have a significant effect on a company's profit and revenues. To help business manage this excess effectively and efficiently, the company offers a comprehensive portfolio of innovative industrial recycling services. Through a combination of these services, Combined Resources' waste recycling experts develop unique strategies and solutions based on a client's specific business needs.

To learn more about Combined Resources' metal, paper, and plastics recycling in Chicago, visit their new website at www.combinedresources.us.

About Combined Resources, Inc.: Combined Resources Inc. helps businesses minimize their waste output and maximize their profit margins. A team of industry experts uses the very latest innovations to effectively manage a wide range of industrial waste including: paper and plastics recycling, metal recycling and shredding/document destruction.
