

Tusa Consulting Services adds Mr. Clayton Whitehead to its consulting and project implementation staff

COVINGTON, LA, USA, April 11, 2014 /EINPresswire.com/ -- [Tusa Consulting Services](#), a designer of [public safety radio](#) systems, has announced the addition of Mr. Clayton (Clay) Whitehead to its consulting and project implementation staff.

Prior to joining [Tusa Consulting](#), Mr. Whitehead was employed as a solutions architect for Motorola Solutions Inc., a manufacturer of land mobile radio, wireless broadband and command center solutions. During his tenure with MSI, Mr. Whitehead was responsible for providing voice of customer input to MSI product teams, thought leadership engagements at tradeshow and national conferences, helping customers navigate regulatory challenges, developing vertical market expertise and worked for many years in two-way radio and mobile data system design and implementation.

Mr. Whitehead is based in Atlanta, Georgia where he will be supporting public safety communications projects throughout Alabama, Florida, Georgia, North Carolina, South Carolina and Tennessee. Clay's 24 year career in public safety solutions further expands Tusa Consulting's capability of ensuring vendor technical compliance, workmanship quality and on-time project completions.

About Tusa Consulting Services

Tusa Consulting Services was founded by Dominic (Nick) Tusa in 1992. At that time, Tusa provided contract radio engineering services for professional consulting firms such as Moses Engineers (New Orleans); RCC Consultants (Woodbridge, NJ) and Dorsey-Pages, LLC. Additionally, Tusa independently undertook microwave and radio communications projects for Exxon Company, USA; the City of Kansas City, Missouri and others.

By 2002, Tusa had begun its transition from providing technical services to other consulting firms and focused on developing a wholly-independent private practice. By late 2004, Tusa had initiated its plan for structured expansion through equity partnerships and had selected its first partner, Gilbert Stock. Coincident with Stock's addition, the firm's official name was changed to Tusa Consulting Services II, LLC (or TCS).

Today, TCS has consultants located in Louisiana, Texas, Pennsylvania, Missouri, Florida and Georgia. Our vision is to be recognized as the best in the nation at designing and providing implementation oversight of life-critical, hardened radio networks. Every step we take, whether in the expansion of our firm into other states, the addition of consultant personnel or through the development of new customer services, is geared toward providing only the highest quality response, care and attention to client needs.
