European market growth is mainly depending upon the countries such as Italy, Germany, U.K, Spain and France and others.

The European market is facing an economic slowdown in the recent years due to the unusual demand. Due to the market uncertainty and sovereign debt crisis the Western European countries are facing the restraints in the growth activities but Scandinavian countries such as Denmark, Norway and Sweden are likely to be safe from this crises and uncertainty. The heavy construction equipment market is expecting an adequate growth rate forecast in both commercial and residential spending by 2027. Also there are many planned constructions site are planning on postponing their plan due to the crises.

The spending on construction are likely to be stable and stagnant in in Western Europe with a very little growth expectations. Germany is considered to be a fast growing region in Europe followed by Spain, Ireland, U.K, France and others. These regions will experience a decline growth rate till 2027.

In the coming years, the Eastern Europe countries such as Poland, Russia and others will be expecting positive waves of huge spending on constructions. Non- residential sector will be

forecasted as the fastest growing sector.

Huge investment from Asia-Pacific and North America has created a ladder of opportunity for the European market to grow in the coming years.

Furthermore, the report offers broad analysis of industry overview of Heavy Construction Equipment which includes types, application analysis, end users, supply chain management and key regulations in various regions along with the heavy construction equipment distributor analysis.

Nextly, the report covers geographical analysis of Western Europe and Eastern Europe.

Furthermore, the report has been bifurcated on the basis of by types (earthmoving equipment, material handling equipment, heavy construction vehicles, others (cranes, excavator, dozer)), by application (mining & excavation, earthmoving, transportation, lifting, material handling, others), by end users (oil & gas industry, construction industry, military, mining, agriculture & forestry and others).

Research Methodology

To calculate Heavy Construction Equipment market size, we have considered revenue of top players in the market and to offer accuracy, our research is supported by industry experts who offer insight on industry structure and technology assessment, competitive landscape, penetration, emerging products and trends. Their analysis is based (80 to 85%) on primary & (15 to 20%) on secondary research as well as years of professional expertise in their respective industries. In addition to analyze current and historical trends, our analysts predict where the market is headed over the next five to ten years. It varies by segment for these categories geographically presented in the list of market tables. Top-down and bottom-up are important strategies of processing the information and knowledge ordering, used in a variety of fields including humanistic, software and scientific theories and management and organization. In practice, they can be seen as a style of thinking, teaching, or leadership.

Speaking about this particular report we have conducted primary surveys (interviews) with the key level executives (VP, CEO's, Marketing Director, Business Development Manager and many more) of the major players active in the market.

Scope of the Report

This market research report covers the Europe: heavy construction equipment analysis market by types, application, end users and region.

Europe: Heavy Construction Equipment Market

- By Volume
- By Value

Europe: Heavy Construction Equipment Market, by Types

- Earthmoving Equipment
- Material Handling Equipmen
- tHeavy Construction Vehicles
- Others (Cranes, Excavator, Dozer)

Europe: Heavy Construction Equipment Market, by Applications

- Mining & Excavation
- Earthmoving
- Transportation
- LiftingMaterial
- Handling
- Others

Europe: Heavy Construction Equipment Market, by End Users

- Oil & Gas Industry
- Construction Industry
- Military
- Mining
- Agriculture
- Forestry and Others

Europe: Heavy Construction Equipment Market, by Regions

- Western Europe
 - o U.K
 - o Spain
 - o Italy
 - o France
 - o Germany
 - o Rest of Western Europe
- Eastern Europe
 - o Poland
 - o Russia
