Stratview Research foresees a robust growth opportunity in the aerospace and defense windshield wiper market in the next five years (2016 – 2021), which offers an opportunity to the aerospace industry players to align themselves with the market growth.

The author stated that narrow body aircraft segment is expected to remain the growth engine of the global aerospace & defense windshield wiper systems market during the forecast period.

North America is expected to remain the largest market for global aerospace & defense windshield wiper systems in the next five years. Asia-Pacific region is likely to experience the fastest growth during the forecast period, driven by demand of wiper systems in emerging economies, such as China and India.

The key windshield wiper systems manufacturers for aerospace & defense industry are ECE (Zodiac Aerospace) and UTC Aerospace Systems, Sensors & Integrated Systems.

New product development, long term contracts, and collaboration with OEMs are the key strategies adopted by the key players to gain competitive edge in the market.

Report Features

This industry research report from Stratview Research provides market intelligence in the most comprehensive manner. The report structure has been kept such that it offers maximum business value. It provides critical insights on the market dynamics and will enable strategic decision making for the existing market players as well as those willing to enter the market. The following are the key features of the research report:

- Market structure: Overview, industry life cycle analysis, supply chain analysis.
- Market environment analysis: Growth drivers and constraints, Porter's five forces analysis, SWOT analysis.
- Market trend and forecast analysis.
- Market segment trend and forecast.
- Competitive landscape and dynamics: Market share, product portfolio, product launches, etc.
