

Pre-engineered Buildings 2016 Global Market Expected to Grow at CAGR 11.96% and Forecast to 2020

WiseGuyReports.Com Publish a New Market Research Report On – “Pre-engineered Buildings 2016 Global Market Expected to Grow at CAGR 11.96% and Forecast to 2020”

PUNE, INDIA, November 18, 2016
/EINPresswire.com/ --

The analysts forecast the [global PEB market](#) to grow at a CAGR of 11.96% during the period 2016-2020.

Global population growth and rapid urbanization are the other drivers of the global construction market. The construction industry in developed markets has a positive outlook as the forecast period will witness a decrease in the effects of global financial crises, a stabilization in household income, and an improvement in public finances. However, the construction markets in Japan and some European countries will register weak growth. The growth in older population and low fertility rates have decreased the number of workforce in Japan. This has, in turn, affected the economy, leading to weak growth in the Japanese construction industry. The economic growth in Europe is slow due to sharp falls in European equity markets and decrease in exports caused by a slowdown in Chinese and other emerging economies. This will affect the overall European economy, influencing the construction industry in the region.
