

Ultra-Low Temperature Freezer Market Analysis by (Types, Users), Major Factors Driving the Growth 2016 to 2022

Market Research Future published a Cooked Research Report on Global Ultra-Low Temperature Freezers Market is expected to grow with CAGR of 2.7% From 2016-2022

PUNE, MAHARASHTRA, INDIA,
November 24, 2016 /EINPresswire.com/
-- Market Highlights

The global ultra-low temperature freezers market has been evaluated as a growing market and it is expected that the market will touch high growth figures in future.

The rising R&D expenditure in biomedical industry and better option from conventional cascade is boosting the revenues per year. The global market for Ultra-Low Temperature Freezer is expected to reach USD 701.4 million by the end of the forecasted period and is expected to grow at a CAGR of 2.7%.

Increasing need for high power efficiency products is one of the major factors driving the growth of the global Ultra-Low Temperature Freezers Market by 2022

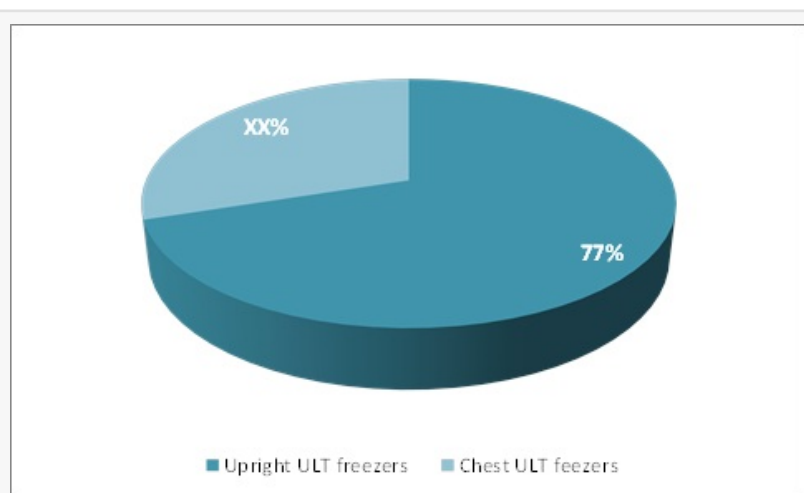

Key Players

- Panasonic Healthcare Corporation (North America)
- VWR International
- Helmer Scientific
- Haier
- Eppendorf AG
- Thermofisher Scientific Inc.

Hottest Trend in the Market

Ultra-low temperature freezers are used for the storage of the samples, vaccines, medicine among others. They have the range of temperature between - 46C to - 86C. The market for [ULT Freezer Market](#) is growing with increasing need of development in biomedical industry. Among the type;

Ultra-Low Temperature Freezer Market Share

“We enable our customers to unravel the complexity.”

Market Research Future

upright ULT freezers and chest ULT freezers are compositing the growth of the market. It is projected to grow rapidly from the period of 2013 to 2022.

Intended Audience

- Biomedical devices manufacturers
- Biomedical devices suppliers
- Government Research Laboratory
- Private Research Laboratory
- Research and Development (R&D) Companies
- Market Research and Consulting Service Providers
- Medical Research Laboratories

Test the market data and market information presented through more than 45 market data tables spread over 86 numbers of pages of the project report. Avail the in-depth table of content (TOC) & market synopsis on the "[Global Ultra-Low Temperature Freezers Market Research Report - Forecast to 2022](#)"

Global Ultra-Low Temperature Freezers Market:

The key players in this market are keen in developing the existing ULT freezers. The companies like Thermo Fishers and Panasonic Healthcare have developed more energy efficient ultra-low temperature freezers that could save more than 20% of the energy consumed by the ULT freezers. With these developments the market for ULT freezers is expected grow increase exponentially.

Key Finding

- The global ultra-low temperature freezer market and is expected to reach USD 701.4 million by 2022.
- Regionally, North America holds the largest market share for global Ultra-low temperature freezer market and is expected to reach USD 393.9 million by 2022.
- Asia-Pacific market is expected to be the fastest growing market, and expected to reach at USD 152.5 million by 2022.
- On the basis of type, upright ULT freezers segment holds largest market share.

Market Research Analysis:

In recent years the investment for biomedical R&D by Asian countries like China, South Korea, India, Japan and others subsequently increased when compared to North America and Europe. Vigorous efforts taken by the manufacturers to improve the power-efficiency and other technological advancement has boosted the growth of the market. In the coming years, it is expected that the global ultra-low temperature freezers market will advance with higher growth rate as compared to previous years.
