

Smart Packaging Market by Technology, Applications, Segmentation, Strategy and Region Forecast 2022

Smart Packaging Info by Technology

(Active, Intelligent and MAP), by

Application (Food & Beverages, Automotive, Healthcare), and Region - Forecast to 2022

PUNE, MAHARASHTRA, INDIA, January 12, 2017 /EINPresswire.com/ -- Market Highlights

The Major Key Players are 3M Company, Temp Time Corporation, PakSense, American Thermal Instruments, Avery Dennison, R.R. Donnelly Sons & Company, BASF SE, International Paper"

Market Research Future

The popularity of smart packaging is growing over the past few years. Smart packaging is used for food & beverages, personal care, healthcare and automotive products. Rising health awareness, technological advancement, increased shelf life and rising industrialization fueled the demand of the market. High research and development cost is expected to hamper the growth of the market in coming years.

The market for [global smart packaging market](#) is expected to grow over the CAGR of around 5% during the period

2016 to 2022

Major Key Players

- 3M Company
- Temp Time Corporation
- PakSense
- American Thermal Instruments
- Avery Dennison
- R.R. Donnelly Sons & Company
- BASF SE
- International Paper
- Stora Enso
- Huhtamaki Group
- Smartrac N.V

Study Objectives of Global Smart Packaging Market

- To provide detailed analysis of the market structure along with forecast for the next 10 years of various segments and sub-segments of the Global Smart Packaging Market
- To provide insights about factors affecting the market growth
- To Analyze the Global Smart Packaging Market based on various factors- price analysis, supply chain analysis, porters five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, APAC, and Rest of the World (ROW)
- To provide country level analysis of the market with respect to the current market size and future prospective
- To provide country level analysis of the market for segment by Technology, Application and by Region.
- To provide strategic profiling of the key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Global Smart Packaging Market

Taste the market data and market information presented through more than 40 market data tables and figures spread over 125 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "[Global Smart Packaging Market Research Report - Forecast to 2022](#)"

Market Research Analysis

It is expected that the global smart packaging market will advance with higher growth rate as compared to previous years. The market is highly application based. Personal care and automotive sectors are expected to grow fast over the forecasted period. However, food &

beverage is the largest sector for smart packaging. On the basis of technology, active packaging accounted for the largest market share. European region is the leading market, majorly due to laws favoring smart packaging.

Scope of the Report

This study provides an overview of the global smart packaging market, tracking two market segments across four geographic regions. The report studies key players, providing a five-year annual trend analysis that highlights market size, volume and share for North America, Europe, Asia Pacific, and Rest of the World. The report also provides a forecast, focusing on the market opportunities for the next five years for each region.

The scope of the study segments the global smart packaging market as technology and application. On the basis of technology it is segmented as active packaging, intelligent packaging and modified atmosphere packaging. On the basis of application it is widely used in food & beverage, health care, personal care and automotive industries.
