WiseGuyReports.Com Publish a New Market Research Report On – “Procure-To-Pay Outsourcing 2017 Global Market Expected to Grow at CAGR 15.77% and Forecast to 2021”.

The analysts forecast the [global procure-to-pay \(P2P\) outsourcing](#) market to grow at a CAGR of 15.77% during the period 2016-2020.

Procurement is a relatively new area of outsourcing. Procurement organizations face constraints in delivery due to the lack of resources. Companies often have to deal with declining budgets because of volatile economic conditions. CPOs are often forced to accomplish more with fewer resources. Budgetary restrictions are thus encouraging CPOs to seek low-cost delivery solutions such as outsourcing.

P2P outsourcing helps companies bring on board outsourcing specialists and expert teams to handle internal purchasing, thus achieving greater value in terms of cost savings and go-to-market strategies. Sometimes, service providers do not necessarily focus on defining low-cost solutions; instead, they offer value-added services such as gaining supplier insights, market speculation details, and vendor selection.
