

Global Cranes Market : Industry Research, Review, Growth, Segment, Analysis and Forecast to 2021

Growing global construction industry is the key driver of cranes market across the globe as these material handling equipment work best with heavy machineries

PUNE, INDIA, February 16, 2017 /EINPresswire.com/ -- Growing global construction industry is the key driver of [cranes](#) market across the globe as these material handling equipment work best with heavy machineries. Moreover, cranes are used on construction sites to load/unload heavy material component which is impossible for human labor to do. Rising shipbuilding industry owing to rising demand for oil and other raw materials overseas coupled with high funding for military ships will propel the growth of global cranes market during the forecast period. APAC region will witness the fastest growth of regional cranes market due to rising infrastructure development and increase in construction activities in emerging economies such as China, India and South Korea.
