

Non-Lethal Weapons Market is expected to Register Highest CAGR of 9% During the Forecast Period by 2021

Global Non-Lethal Weapons Market by End User (Law Enforcement and Military & Defense), by Product Type (Direct Contact Weapon), and by Technology

PUNE, MAHARASHTRA, INDIA, February 17, 2017 /EINPresswire.com/ -- Market Highlights

The [global Non-Lethal Weapons market](#) is expected to grow at a CAGR of around 9% during 2016-2021. The factors driving the demand are growing civilian & political unrest, and police militarization, thus resulting in the procurement of advanced weapon systems.

As per the MRFR analysis, the factor restraining the market growth is the concern raised by civilian over the usage of these weapons and regulatory issues would hinder the market growth in the forecast period.

Americas to dominate the Global Non-Lethal Weapons Market during the forecast period
This research report provides detailed insights, into various levels of analyses such industry analysis, market share analysis leading market players and their profiles. This report also helps in studying the target segments by providing views on emerging & high-growth segments and market conclusion.

Together the market data comprise and discuss with the basic assessments on the competitive scenarios & strategies, of the Global Non-Lethal Weapons Market, including the high-growth regions, countries and their political, economical and technological environments. Furthermore the project report also provides views over the historic market values as well as, pricing and cost analysis of the same.

Access the market data and information presented through over 60 tables and figures spread 80+ pages of the project report. Avail in-depth table of content (TOC) & market synopsis on "[Non-Lethal Weapons Market Information- Forecast from 2016 to 2021](#)"

Study Objectives of Non-Lethal Weapons Market

- To provide detailed analysis of the market structure along with forecast for the next 5 years of the various segments and sub-segments of the Non-Lethal Weapons Market
- To provide insights about factors affecting the market growth
- To analyse the Non-lethal Weapons Market based on various factors- price analysis, supply chain analysis, porters five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW)
- To provide country-level analysis of the market with respect to the current market size and future prospective
- To provide country-level analysis of the market for segment by end user, Product type, and technology.
- To provide strategic profiling of key players in the market, comprehensively analysing their core competencies, and drawing a competitive landscape for the market
- To track and analyse competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Non-lethal Weapons Market
