

# Cable Management Market to Reach USD 25.56 billion with 9.67% CAGR Forecast to 2020

*Cable Management Market 2016 Global Trends, Market Share, Industry Size, Growth, Opportunities, and Forecast to 2020*

PUNE, INDIA, March 21, 2017 / EINPresswire.com/ -- The global [cable management](#) market was valued at USD 16.11 billion in 2015 and is estimated to increase at a CAGR of 9.67% and reach USD 25.56 billion by the end of 2020. The existence of high-capacity network creates a demand for cable management and protection. To enhance the long-term performance of the network, selection of appropriate cable management system plays a major role. While providing maximum protection and routing capabilities, the cable management systems should enable fast deployment in current and future network infrastructures. Today, companies offer various systems to protect and route cable from entrance to termination point.

Rapid urbanization and changing standard of living drive the growth of the global cable management systems market. Technology advancements like data centers in IT, high-speed connectivity in telecommunication and heat-resistant and temperature resistant solutions in aerospace and automobile industries help the cable management systems market to grow lucratively. The uncertainty of raw material prices has a negative impact on cable management products. Due to this uncertainty, the cable management market becomes unpredictable and experiences slow down. The BRIC countries are making huge investments in their infrastructure, IT, telecommunication, and automobile, which are end-users for cable management products. Emerging markets in BRIC economies are opening opportunities for the cable management products

The global cable management market is segmented by material (metallic and non-metallic), product (cable tray, cable ladder, raceway, cable trunking, cable conduit, cable connector, cable gland, cable chain and reel, cable lug and tools, cable duct and others) and end-user vertical (IT and telecom, healthcare, energy and utility, mining, manufacturing, logistics and transportation, oil and gas, construction and others) and by region (North America, Europe, Asia-Pacific, Latin America, the Middle East and Africa). Rapid growth in the construction sector and high acceptance of cable trays

as an alternative to cable management equipment is driving the market in Asia-Pacific.

This report describes a detailed study of the Porter's five forces analysis of the market. All the five major factors in these markets have been quantified using the internal key parameters governing each of them. It also covers the market landscape of top players, which includes the key growth strategies, geographical footprint, and competition analysis.

The report also considers key trends that impact the industry and key profiles of leading companies in market, which include –

Legrand S.A.

Schneider Electric SE

Thomas & Betts Corporation

Hellermann Tyton Group PLC
