

# Wind Power in China Industry 2017 Production, Segmentation, Consumption and Forecast to 2022

*Wind Power in China Industry by  
Manufacturers, Production and  
Applications Research Report Forecast to  
2020*

PUNE, INDIA, May 19, 2017

/EINPresswire.com/ -- Summary

"[Wind Power in China](#), Market Outlook to 2030, Update 2017 - Capacity, Generation, Levelized Cost of Energy (LCOE), Investment Trends, Regulations and Company Profiles" is the latest report from the industry analysis specialists that offer comprehensive information and understanding of the wind power market in China.

GET SAMPLE REPORT @ <https://www.wiseguyreports.com/sample-request/1289867-wind-power-in-china-market-outlook-to-2030-update-2017-capacity> □

The report provides in depth analysis on global renewable power market and global wind power market with forecasts up to 2030. The report analyzes the power market scenario in China (includes conventional thermal, nuclear, large hydro and renewable energy sources) and provides future outlook with forecasts up to 2030. The research details renewable power market outlook in the country (includes wind, small hydro, biopower and solar PV) and provides forecasts up to 2030. The report highlights installed capacity and power generation trends from 2006 to 2030 in China wind power market. A detailed coverage of renewable energy policy framework governing the market with specific policies pertaining to wind power is provided in the report. The research also provides company snapshots of some of the major market participants.

The report is built using data and information sourced from proprietary databases, secondary research and in-house analysis by team of industry experts.

## Scope

The report analyses global renewable power market, global wind power (Onshore and Offshore) market, China power market, China renewable power market and China wind power market. The scope of the research includes -

- A brief introduction on global carbon emissions and global primary energy consumption.
- An overview on global renewable power market, highlighting installed capacity trends, generation trends and installed capacity split by various renewable power sources. The information is covered for the historical period 2006-2016 (unless specified) and forecast period 2016-2030.
- Renewable power sources include wind (both onshore and offshore), solar photovoltaic (PV), concentrated solar power (CSP), small hydropower (SHP), biomass, biogas and geothermal.
- Detailed overview of the global wind power market with installed capacity and generation trends, installed capacity split by major hydropower countries in 2016 and key owners information of various regions.
- Power market scenario in China and provides detailed market overview, installed capacity and power generation trends by various fuel types (includes thermal conventional, nuclear, large hydro and renewable energy sources) with forecasts up to 2030.
- An overview on China renewable power market, highlighting installed capacity trends (2006-2030), generation trends(2006-2030) and installed capacity split by various renewable power sources in 2016.
- Detailed overview of China wind power market with installed capacity and generation trends and major active and upcoming wind projects.
- Deal analysis of China wind power market. Deals are analyzed on the basis of mergers, acquisitions, partnership, asset finance, debt offering, equity offering, private equity (PE) and venture capitalists (VC).
- Key policies and regulatory framework supporting the development of renewable power sources in general and wind power in particular.
- Company snapshots of some of the major market participants in the country.

## Reasons to buy

- The report will enhance your decision making capability in a more rapid and time sensitive manner.
- Identify key growth and investment opportunities in China wind power market.
- Facilitate decision-making based on strong historic and forecast data for wind power market.
- Position yourself to gain the maximum advantage of the industry's growth potential.
- Develop strategies based on the latest regulatory events.
- Identify key partners and business development avenues.
- Understand and respond to your competitors' business structure, strategy and prospects.

## Table of Content: Key Points

1 Table of Contents 2

1.1 List of Tables 5

1.2 List of Figures 7

2	Executive Summary	8
2.1	Fall in OECD Countries' Carbon Emission despite a Global Rise during 2010-2015	8
2.2	Technological Advancements and Government Support Driving Global Renewable Power Installations	8
2.3	Top 10 Countries Account for Over 85% of Wind Power Capacity	8
2.4	Thermal is the Dominant Source in the Power Mix	9
2.5	Growth Expected in Nuclear and Renewable Sectors	10
3	Introduction	11
3.1	Carbon Emissions, Global, 2001-2016	11
3.2	Primary Energy Consumption, Global, 2001-2025	13
3.3	Wind Power, Global, Technology Definition and Classification	15
3.4	Wind Power Market, Technology Overview	16
3.5	Wind Power Market, Turbine Components	16
3.6	Report Guidance	18
4	Renewable Power Market, Global, 2006 - 2030	19
4.1	Renewable Power Market, Global, Overview	19
4.2	Renewable Power Market, Global, Installed Capacity, 2006-2030	20
4.2.1	Renewable Power Market, Global, Cumulative Installed Capacity by Source Type, 2006-2030	20
4.2.2	Renewable Power Market, Global, Cumulative Installed Capacity Split by Source Type, 2016 and 2030	22
4.2.3	Renewable Power Market, Global, Net Capacity Additions by Source Type, 2016-2030	24
4.2.4	Renewable Power Market, Global, Comparison by Cumulative Installed Capacity of Technology, 2016-2030	26
4.3	Renewable Power Market, Global, Power Generation, 2006-2030	28
4.3.1	Renewable Power Market, Global, Power Generation by Source Type, 2006-2030	28
4.3.2	Renewable Power Market, Global, Power Generation, Source Comparison Based on Power Generation, 2016-2030	30
4.4	Renewable Power Market, Global, LCOE Comparison of Power Generating Sources, 2014-2014	32
5	Wind Power Market, Global, 2006-2030	36
