

Metering Pump Market Analysis by Application and Types - Global Market Estimated USD 5.30 Billion by 2023

Metering Pump Market by Type (Diaphragm, Piston), Application (Water and Wastewater Treatment, Food Industry, Oil & Gas, Chemical) and Region - Forecast to 2023

“ We enable our customers to unravel the complexity.”

Market Research Future

PUNE, MAHARASHTRA, INDIA, May 19, 2017 /EINPresswire.com/ -- Market Highlights

A metering pump is a device with the ability to vary capacity manually or automatically as per requirement of the process conditions. Moreover, it works on a repetitive basis with high level of accuracy. Food and beverage industry is one of the fastest-growing end-use industries for metering pumps. On the basis of applications the market has been segmented as water and wastewater treatment, food industry, oil & gas, petrochemical, chemical and others. The processed food industry is driven by changing consumer lifestyle, increasing disposable income, and implementation of food security policies while water treatment industry accounted for the largest share of the metering pumps. Moreover investment in water market will aid in the market growth of metering market.

Key Players in market are Lewa GmbH (Germany), Milton Roy Company (U.S.), IDEX Corporation (U.S.), Injection Technical Control Incorporation (Spain), Mcfarland-Tritan LLC (U.S.), Seepax GmbH (Germany)”
Market Research Future

Technologies to reduce the total cost with increased investment in infrastructure and stringent government regulations are some of the factors which will influence the growth in the metering pumps market, positively. Moreover, environmental concerns and technological advancements in countries such as China and India lead to the growth of metering pumps market in the forecast period.

[Global Metering Pump Market](#) was valued at USD 3.70 Billion in 2016, and is projected to reach USD 5.30 Billion by 2023, Global Metering Pump Market is Estimated to Grow at a CAGR of 6.5%, during 2016 to 2023

Key Players

The key players of Global Metering Pump Market include:

- Dewa GmbH (Germany)
- Milton Roy Company (U.S.)
- DEX Corporation (U.S.)
- Injection Technical Control Incorporation (Spain)
- Mcfarland-Tritan LLC (U.S.)
- Seepax GmbH (Germany)
- Brominent Dosiertechnik GmbH (Germany)
- Seko S.P.A. (Italy)
- Swelore Engineering Private Limited (India)
- SPX Flow Technology Norderstedt GmbH (Germany)

Market Research Analysis:

Asia-Pacific is expected to dominate the market of metering pumps in the forecast period. High investments and growing demand for technologically upgraded items are some of the factors, which drive the demand for metering pumps market. Moreover, features such as low maintenance cost and high operating efficiency are pushing the market towards growth. Additionally, numerous government regulations in order to promote efficiency across various end use industries are also adding to the market growth.

Scope of the Report

This study provides an overview of the global Metering pumps industry, tracking three market segments across four geographic regions. The report studies key players, providing a five-year annual trend analysis that highlights market size, volume and share for North America, Europe, Asia Pacific, and Rest of the World. The report also provides a forecast, focusing on the market opportunities for the next five years for each region. The scope of the study segments the global Metering pumps market by type and application. On the basis of type it is segmented as Diaphragm, and Piston. On the basis of application it is segmented as water and wastewater treatment, oil & gas, petrochemical, chemical and other.

About Market Research Future:

At Market Research Future (MRF), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRF team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRF often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
