Description

WiseGuyReports.Com adds" Global Transport Refrigeration Units Market 2017-2021 "Research To Its Database.

Transport refrigeration units are used to control the environment of temperature-sensitive products transported in trucks, vans or any carrier vehicle as well as in marine/intermodal containers. Refrigerated transportation is a method of climate controlled transportation, which is specifically designed to ship products that require a cool or frozen temperature to stay fresh for delivery to the market. Products like frozen fruits and vegetables, frozen seafood or meat, plants, chemicals, pharmaceuticals, and agricultural products require a temperature controlled environment to sustain the transit.

Covered in this report

The report covers the present scenario and the growth prospects of the global transport refrigeration units market for 2017-2021. To calculate the market size, the report considers the market segmentation based on modes of transportation, end-user, and geography.

Get sample Report @ <https://www.wiseguyreports.com/sample-request/1930706-global-transport-refrigeration-units-market-2017-2021>

The market is divided into the following segments based on geography:

- APAC
- Europe
- North America
- ROW

The Global Transport Refrigeration Units Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Carrier
- DAIKIN INDUSTRIES
- Ingersoll Rand
- MITSUBISHI HEAVY INDUSTRIES

Other prominent vendors

- CHEREAU
- China International Marine Containers
- Great Dane
- Hubbard Products
- LAMBERET
- LAMILUX
- Morgan Corporation
- Schmitz Cargobull
- Utility Trailer Manufacturing Company
- Wabash National Corporation

Market driver

- Growing demand for frozen food
- For a full, detailed list, view our report

Market challenge

- Health concerns over consumption of frozen fruits and vegetables
- For a full, detailed list, view our report

Market trend

- Technological advances in refrigeration units
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?

Table of Contents -Major Key Points

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

- Market outline

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by end-user

- Market overview
- Global transport refrigeration units market in food sector
- Global transport refrigeration units market in pharmaceutical sector

PART 07: Market segmentation by modes of transportation

- Market overview
- Global transport refrigeration units by land route
- Global transport refrigeration units market by sea route
- Global transport refrigeration units market by air route

PART 08: Geographical segmentation

- Market overview
- Transport refrigeration units market in North America
- Transport refrigeration units market in Europe
- Transport refrigeration units market in APAC

PART 09: Decision framework

PART 10: Drivers and challenges

- Market drivers
- Market challenges

PART 11: Market trends

- Technological advances in refrigeration units
- New food safety regulations
- Increased government support for processed foods

PART 12: Vendor landscape

- Competitive scenario
- Other prominent vendors

PART 13: Key vendor analysis

- Carrier
- DAIKIN INDUSTRIES
- Ingersoll Rand
- MITSUBISHI HEAVY INDUSTRIES
