[Mobile Engine Filtration Market Analysis And Forecast](#)

About Mobile Engine Filtration

Engine filtration systems are used in internal combustion engines to provide a clean supply of air, fuel, and oil to ensure the efficient running of the engine. These are usually made of fibrous materials such as paper, cloth, or synthetic materials, which have the ability to contain dust, dirt, moisture, and other particulate matter that can have a negative impact on engine performance.

All mobile combustion engines utilize some sort of filtration device to prevent undesirable substances from entering the engine. A filtration device usually consists of some form of filter housing and a replaceable filter, which contains the filter media.

Technavio's analysts forecast the global mobile engine filtration market to grow at a CAGR of 6.26% during the period 2017-2021.

Covered in this report

The report covers the present scenario and the growth prospects of the global mobile engine filtration market for 2017-2021. To calculate the market size, the report considers the demand from new and replacement demand from end-users, including passenger and commercial vehicles, heavy machinery and off-road vehicles, aerospace and defense, locomotives, and

marine vessels.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

Technavio's report, Global Mobile Engine Filtration Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Bosch Auto Parts
- Cummins Filtration
- DENSO
- MAHLE
- Donaldson Company
- Parker Hannifin

Other prominent vendors

- aFe POWER
- AXI International
- BIG Filter
- Caterpillar
- Champion Laboratories
- FRAM Group
- Freudenberg & Co
- K&N Engineering
- Magneti Marelli
- MANN+HUMMEL
- Sogefi
- TORA Group
- Toyota Motor
- Zhejiang Universe Filter Company

Market driver

- Rising global automotive sales
- For a full, detailed list, view our report

Market challenge

- Implementation of stringent emission regulations
- For a full, detailed list, view our report

Market trend

- Advances in filtration technology
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?

You can request one free hour of our analyst's time when you purchase this market report. Details are provided within the report.

Table of Contents:

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

- Market outline

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by product type

- Market overview
- Global mobile engine filtration market by liquid filters
- Global mobile engine filtration market by air filters

PART 07: Geographical segmentation

- Market overview
- Mobile engine filtration market in APAC
- Mobile engine filtration market in Americas
- Mobile engine filtration market in EMEA

PART 08: Decision framework

PART 09: Drivers and challenges

- Market drivers

- Market challenges

PART 10: Market trends

- Advances in filtration technology

- Increasing use of alternative fuels

- Growth in global construction activities

PART 11: Vendor landscape

- Competitive scenario

- Other prominent vendors

PART 12: Key vendor analysis

- Bosch Auto Parts

- Cummins Filtration

- DENSO

- Donaldson Company

- MAHLE

- Parker Hannifin

PART 13: Appendix
