

# Peritonitis Pharmaceutical and Healthcare Pipeline Review H2

*Peritonitis Treatment Pipeline Review H2 2017*

PUNE, INDIA, November 13, 2017 /EINPresswire.com/ -- Pune, India, 13th November 2017: WiseGuyReports announced addition of new report, titled "[Peritonitis](#) - Pipeline Review, H2 2017".

## Summary

Peritonitis is inflammation of the peritoneum. There are two types of peritonitis. Spontaneous bacterial peritonitis (SBP) is the result of an infection of the fluid in peritoneal cavity. Secondary peritonitis is usually due to an infection that has spread from digestive tract. Symptoms include abdominal bloating, nausea and vomiting, diarrhea, fatigue, fever and chills. Treatment includes antibiotics.

## Report Highlights

Pharmaceutical and Healthcare latest pipeline guide Peritonitis - Pipeline Review, H2 2017, provides comprehensive information on the therapeutics under development for Peritonitis (Gastrointestinal), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Peritonitis (Gastrointestinal) pipeline guide also reviews of key players involved in therapeutic development for Peritonitis and features dormant and discontinued projects. The guide covers therapeutics under Development by Companies /Universities /Institutes, the molecules developed by Companies in Phase II, Phase I and Preclinical stages are 1, 1 and 5 respectively. Similarly, the Universities portfolio in Preclinical stages comprises 1 molecules, respectively.

Peritonitis (Gastrointestinal) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

## Scope

- The pipeline guide provides a snapshot of the global therapeutic landscape of Peritonitis (Gastrointestinal).
- The pipeline guide reviews pipeline therapeutics for Peritonitis (Gastrointestinal) by companies and universities/research institutes based on information derived from company and industry-specific sources.
- The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.
- The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.

- The pipeline guide reviews key companies involved in Peritonitis (Gastrointestinal) therapeutics and enlists all their major and minor projects.
- The pipeline guide evaluates Peritonitis (Gastrointestinal) therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.
- The pipeline guide encapsulates all the dormant and discontinued pipeline projects.
- The pipeline guide reviews latest news related to pipeline therapeutics for Peritonitis (Gastrointestinal)

#### Reasons to buy

- Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.
- Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.
- Find and recognize significant and varied types of therapeutics under development for Peritonitis (Gastrointestinal).
- Classify potential new clients or partners in the target demographic.
- Develop tactical initiatives by understanding the focus areas of leading companies.
- Plan mergers and acquisitions meritoriously by identifying key players and it's most promising pipeline therapeutics.
- Formulate corrective measures for pipeline projects by understanding Peritonitis (Gastrointestinal) pipeline depth and focus of Indication therapeutics.
- Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope.
- Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.

#### Table of Content: Key Points

Table of Contents 2

List of Tables 4

List of Figures 4

Introduction 5

Peritonitis - Overview 6

Peritonitis - Therapeutics Development 7

Pipeline Overview 7

Pipeline by Companies 8

Pipeline by Universities/Institutes 9

Products under Development by Companies 10

Products under Development by Universities/Institutes 11

Peritonitis - Therapeutics Assessment 12

Assessment by Target 12

Assessment by Mechanism of Action 14

Assessment by Route of Administration 16

Assessment by Molecule Type 18

Peritonitis - Companies Involved in Therapeutics Development 20

Adenium Biotech ApS 20

GlaxoSmithKline Plc 20

Oncodesign SA 20
