PUNE, INDIA, November 14, 2017  
/EINPresswire.com/ --

The analysts forecast the [global PLC software market](#) to grow at a CAGR of 7.13% during the period 2016-2020.

Increased investments in factory and process automation, especially in developing countries like India and China, will lead to steady growth of the PLC software market during the forecast period. We expect the market to register a high growth rate due to entrance of multiple software vendors offering software that can be easily adapted to by machine operators, technicians, and maintenance engineers. Also, enhanced functionalities offered by software tool vendors, which can integrate the PLC software with the business system software to increase the efficiency of industrial process control, will have a positive influence on market growth in the coming five years.
