## 1.2 Market Size Estimation

Top-down and bottom-up approaches are used to validate the global PSD2 and Open Banking market size market and estimate the market size for manufacturers, regions segments, product segments and applications (end users).

The market estimations in this report are based on the marketed sale price of PSD2 and Open Banking (excluding any discounts provided by the manufacturer, distributor, wholesaler or traders). The percentage splits, market shares, and breakdowns of the product segments are derived on the basis of weightages assigned to each of the segments on the basis of their utilization rate and average sale price. The regional splits of the overall PSD2 and Open Banking market and its sub-segments are based on the percentage adoption or utilization of the given product in the respective region or country.

Major players in the market are identified through secondary research and their market revenues determined through primary and secondary research. Secondary research included the research of the annual and financial reports of the top manufacturers; whereas, primary research included extensive interviews of key opinion leaders and industry experts such as experienced front-line staff, directors, CEOs and marketing executives. The percentage splits, market shares, growth rate and breakdowns of the product markets are determined through using secondary sources and verified through the primary sources.

All possible factors that influence the markets included in this research study have been accounted for, viewed in extensive detail, verified through primary research, and analyzed to get the final quantitative and qualitative data. The market size for top-level markets and sub-segments is normalized, and the effect of inflation, economic downturns, and regulatory & policy changes or other factors are not accounted for in the market forecast. This data is combined and added with detailed inputs and analysis from QYResearch and presented in this report.

The following figure shows an illustrative representation of the overall market size estimation process used for this study.
