About [Storage-as-a-Service \(STaaS\)](#)

Storage-as-a-service (STaaS) is a business model in which the service provider leases its storage infrastructure to an enterprise for

storing its business data subsequent to establishing an SLA with them. This data can be actual backup or archive data. STaaS is one among many cloud storage service offerings currently being utilized by various enterprises worldwide. SMEs benefit significantly from these service offerings. STaaS reduces the cost incurred by enterprises for storing data, improves efficiency and availability with better disaster recovery facilities, and provides automation and accessibility. The stored data can be accessed via the internet utilizing wired or wireless devices. Enterprises can decrease their spending on infrastructure by utilizing this service, which is being provided by many reputed vendors worldwide.

TechNavio's analysts forecast the Global Storage-as-a-Service market to grow at a CAGR of 37.96 percent over the period 2015-2019.
