"Stainless Steel Sink is a sink, the principal raw material of which is stainless cold-rolled steel coils, such as typically series 300 stainless steel.

Stainless steel sinks are commonly used in residential and non-residential installations including in kitchens, bathrooms, utility and laundry rooms. Stainless steel sinks are available in a variety of shapes and configurations. They may have single or multiple bowls, and may be under mount, top mount, or designed as work tops.

Manufacturers in this report only include their own brand and the OEM manufacturers are not included. The capacity and production of manufacturers are handled in the same way."
