

Family Tree Explorer 9 - New Version of Genealogy Program available

Soft Xpansion has launched Family Tree Explorer 9, the new version of its program for collection, documentation and presentation of ancestry research results.

BOCHUM, GERMANY, January 9, 2019 /EINPresswire.com/ -- The new version 9 of the genealogy program Family Tree Explorer, developed by Soft Xpansion, has been released. The program is a comprehensive, computer-based tool to enter family data and to collect, compile and present ancestry research results.

Any number of persons and their family relationship can be managed. Family Tree Explorer also enables its users to add photos, scanned documents, coats of arms, audio and video clips or further text information to the basic personal data. The application prints illustrative family trees on various designed background graphics. Furthermore, it offers detailed lists of persons or ancestors and descendants, created with just a few clicks. Thanks to an elaborate search function, users find a specific person and all information about him or her in the family member database quickly.

The [Premium edition](#) of Family Tree Explorer 9 is available for EUR 45.99, while the price for the [Standard edition](#) is EUR 29.99. Apart from that, a free trial version allows users to test the program before buying.

Main features at a Glance

- * Enter and edit (new) family data, open data from the previous program version directly or import it from other genealogy programs via the GeDCom format
- * Add annotations, media files, source and witness data for all personal events, e.g. for births or weddings
- * Many options to display and print family trees, diagrams, lists and reports
- * Save presentations as image files - BMP, JPG, GIF, TIFF - or as PDFs (available only in Premium version)
- * Coherence and plausibility check feature and extensive data search functionality
- * Connection to the online map service OpenStreetMap (in Premium version only)
- * Separate program Family Tree Explorer Viewer, may be distributed freely to family members in order to enable them to view family data on their PC without having to buy the program (shipped with Premium version only)

New Functionality

- * Family Tree Explorer Cloud server connection (in Premium edition only)
- * Family Tree Viewer app for Android smartphones or tablets (iOS app scheduled for spring 2019)
- * Additional, high-quality illustrated family tree designs: 3 for Standard version and 6 for Premium version
- * New report type: List of all births, marriages, deaths (Premium only)
- * Protection against data loss: option for automatic saving of the family database (including setting to define the time interval for saving)
- * Save search filter combinations for later use (Premium only)
- * New diagram type: name line
- * Export single family branches as GeDCom file (Premium only)
- * Switch between English, German and French language version in the installed program
- * Upgrade options inside the program (from Standard to Premium and from Trial to Standard or Premium) without need to reinstall
