In the real estate world, innovation is one of the keys to maintaining an ethical stance in the market. By providing buyers with properties using the latest technology and trendy designs, it captures the attention of many. Rudy Lira Kusuma of Titanium Real Estate Network never fails to offer innovation and gather home sellers and buyers in one major event.

Titanium Real Estate Network - Rudy Lira Kusuma Home Selling Team uses the RBID Home Selling System to attract home and property buyers who want to buy a property while having the readiness to make an offer. These RBID homes are among the properties that are not available online, off-market properties, distress sale, bank foreclosures, builder closeouts, bank owned properties, corporate owned, divorce sales, property exchanges and other kinds of properties coming from highly motivated sellers. The team has already gathered over 30,000 pre-approved and pre-qualified buyers who are able, willing, and ready to buy a property. Last month, they successfully sold more than 50 properties.

Kusuma says, "Our team understands how stressful selling a home can be. We want to take away the stress of the selling process and use the RBID Home Selling System as a guarantee to our clients."

Currently, the California housing market is anticipating a change in favor of the buyer. Their homes are considered to be mostly available in huge deals that many property owners would want to get access. On the other hand, RBID homes have more reasons for being a massive deal for buyers.

Other than attractive prices that RBID homes offer, Titanium Real Estate Network also offers warranties to some of the RBID homes. Buyers can enjoy the one-year Home Owners Warranty which can protect them from defects.
