

# Global Vision Care Market to Reach Revenues of \$75 billion during the period 2018–2024- Market Research by Arizton

*The eyeglasses segment will retain its dominant share in the global vision care market during the forecast period*

CHICAGO, IL, UNITED STATES, April 10, 2019 /EINPresswire.com/ -- According to Arizton's recent research report, the global [vision care market](#) is expected to reach revenues of over \$75 billion by 2024, growing at a CAGR of around 4% during 2018–2024.

## Key Highlights Offered in the Report:

1. An estimated \$7 billion vision care products, especially eyeglasses and contact lenses, were sold online in 2018. Therefore, vendors and distributors are rapidly increasing their online presence, offering a wide range of designs and product categories.
2. As the developed market is reaching its maturity stage, APAC is expected to post an incremental growth of \$6.6 billion, with India growing at the highest CAGR of around 6.6%. The country is likely to post around \$1.6 billion incremental growth by the end of the forecast year.
3. The global contact lenses market is growing at a high CAGR of around 6% and is likely to reach around \$12 billion by 2024.
4. The development of smart contact lenses, which diagnose, monitor, and treat a wide range of vision disorders, holds tremendous potential for market growth. These lenses are manufactured from advanced biosensors and microfabrication technology. Sensimed is the first company to launch a smart contact lens into the market.

### Market Segmentation by Distribution Types

- Retail Stores
- Hospitals and Ophthalmology Clinics
- Online Stores
- ASCs

### Vision Care Market- Dynamics

With the growing aging population, the need for quality vision care is expanding and evolving with the availability of a diverse range of glass lens, contact lenses, and IOLs for several vision impairments. The shrinking usage cycles of eyeglasses and the growing preference for disposable contact lenses will have a positive influence on the market.

### Key Drivers and Trends Fueling the Growth of the Global Market:

- High prevalence of vision-related disorders
- Increase in cataract surgeries and adoption of premium IOLs
- Product innovations and technological advancements

### Vision Care Market –Geography

North America accounted for the largest share of the global vision care market due to their high healthcare spending, followed by APAC in 2018. The demand for vision care products in North America is driven by high awareness, better product availability, and extensive reach of innovative products.
