Information and communications technology plays a vital role in the global economy in the modern world due to the excessive reliance on digital systems in all walks of life. The ICT sector has experienced steady growth in the last few years due to the growing demand for the deployment of advanced 5G wireless communication capabilities. The growing demand for advanced wireless communication technology is likely to be a major driver for the ICT sector in the coming years. Developing economies of China, India, and others can play a key role in the expansion of the ICT sector in the coming years, as these countries are likely to focus excessively on the development of wireless network capabilities in the coming years due to the need to remain on par with more developed nations. Government bodies in these countries have remained strongly supportive of advances in the ICT sector in the last few years, which is likely to drive the demand from the sector in the coming years.
