

Worldwide Supply Awarded GSA Certification

Worldwide Supply expands its IT solutions business within the government sector.

FRANKLIN, NJ, UNITED STATES, November 5, 2019 /EINPresswire.com/ -- Worldwide Supply announced today certification by the U.S. General Services Administration (GSA): Schedule 70 for IT Equipment, Software and Services. GSA is the premier procurement source for all federal agencies and customers who order from Schedule Contract program in order to receive cost savings, flexibly and choice, transparency and much more. Under the new certification, federal, state, and local government agencies can access Worldwide Supply's hardware and services through GSAAdvantage!®, the government's online ordering system, at www.gsaadvantage.gov.

We understand the importance that budget plays in the government space, so providing IT solutions that can cut costs by 50%+ can have a massive impact, especially at the state and local level."

*Jay VanOrden, CEO of
Worldwide Supply.*

Worldwide Supply's Strengths:

- Hardware Procurement
- Managed IT Services
- Network Maintenance

• Server/Storage Maintenance

"Obtaining this GSA certification allows Worldwide Supply to be better positioned to provide government agencies with our cost-saving network hardware and managed IT services. We take tremendous pride in our ability to grow and expand over the last 15 years, and this expansion into the government sector is a continuation of our success. We understand the importance that budget plays in the government space, so providing IT solutions that can cut costs by 50%+ can have a massive impact, especially at the state and local level. Plus, our ever-growing list of partners with world-leading technology companies allows these entities to deal with a single vendor for a complete IT solution," said Jay VanOrden, CEO of Worldwide Supply.

About Worldwide Supply
