Key Players

The report covers a broad study of the competitive scenario of the Superdisintegrants market and the current trends that are expected to impact the market. It identifies vital market players of the market, comprising of both key and emerging players. The report consists of the corporations in the market share study to offer a more comprehensive overview of the key market players. Furthermore, the report also contains significant strategic developments of the market, such as new product launch, acquisitions & mergers, partnerships, agreements, research and development collaborations, and joint ventures, along with notable growth policies of key market players on a regional and global basis.

Superdisintegrants are substances or mixture of substances used in tablets and capsules to ensure the rapid break down into their primary particles, facilitating the dissolution or release of the active ingredients. Superdisintegrants helps to improve the efficiency of solid dosage forms by decreasing the disintegration time which in turn enhances drug dissolution rate. The important properties of superdisintegrants are great compressibility, great mouth feel, high similarity with alternate excipients and poor dissolvability. The global superdisintegrants market was USD 263.51 million in 2018 and is estimated to reach USD 449.27 million by 2025 at a CAGR of 7.92% during the forecast period

Growth by Region

Europe held major global superdisintegrants market, in terms of revenue in 2018 followed by North America and Asia Pacific. The large share of Europe can be attributed to the presence of number of pharmaceutical giants with large production capacities leading to high consumption of excipients. The growing emphasis on superior pharmaceutical products and generics is also expected to aid the market growth in the region. In addition, Germany is home to some of the most significant global players who are operating in the field of superdisintegrants market.

Drivers VS Constraints

The major factors driving the growth of this market include the increasing adoption of orally disintegrating tablets, growing generics market, growing population of geriatric and pediatric patients, and the emergence of new Superdisintegrants Market for the pharmaceutical industry. In addition, specific properties superdisintegrants such as good mouth feel and compressibility, compatibility with other drugs and poor solubility positively impacting the growth of the market.

However, the growth of the market is confined by the declining financial support for R&D fields.

Industry Trends and Updates

JRS Pharma in January 2017 expanded its Superdisintegrants plant in Gujarat Microwax resulted in increase in its production capacity to double its original capacity. VIVASOL® Croscarmellose Sodium and EXPLOTAB® Sodium Starch Glycolate are the two disintegrants brands of JRS Pharma.
