When it comes to saving money, time and space, such dishwashers play a great role. The increasing market for modular kitchen has led to incorporate more stylish, functionality and appealing-based kitchen models. The demand for a compact dishwasher for smaller kitchen is also increasing. All these factors will propel the global market growth during the forecast period. The dishwashers are quite easy to use, and some come with more advanced features to make the cleaning process much simpler. Upcoming trends, for example, customized dishwashers, are gaining popularity.

A dishwasher can help people in saving their personal time as well as energy. It also reduces electricity and water bill. As per a report, dishwasher with energy star-certification can save around USD 40 in utility bills in a year. So, more and more people are now using Smart Dishwasher. With increasing technological advancements, the concept of the kitchen has gone through some massive changes. The focuses are now on enhancing the efficiency in the kitchen and reducing the time required in cleaning.

Global Market Segmentation Analysis

The world Smart Dishwasher market is segmented on the basis of product type, end-use of application and regions. Based on product type, this market report covers revenue, market growth rate, share and more of every product, divided into large-size and small size. It is expected that small size dishwasher will dominate this market segment in the coming years. Such dishwashers take less amount of space and quite popular among the users. Now, considering the application or end-use, it is split into commercial and household. The dominating market segment is household segment. People are now shifting toward modular kitchen design, which will create a massive demand for such dishwashers.

Geographically Market Segmentation Analysis

Based on the region, the worldwide market for Smart Dishwasher is segmented into Europe, Middle East & Africa, North America, South America, and the Asia Pacific. Besides, the report also includes country-level market information. The countries which included in this report are the United States, Germany, France, Italy, Mexico, Canada, India, China, Japan, New Zealand, Australia, Argentina, Brazil, GCC Countries, and more. During 2018, the North America region is dominated the market share. Most of the region's growth is due to growing demand for such dishwashers among people. The technological advancement in these products will also drive the market in the coming years.

Latest Market Updates

In June 2019, Whirlpool opened its first appliance flagship store in China. The store will sell high-end kitchen appliances. The company is now working on new technologies to integrate them into its upcoming kitchen appliances.

Panasonic recently introduced a new dishwasher, which will help the consumers in saving utility

bills, and it will take less amount of space in the kitchen.
