

# CloudChomp, Inc. Achieves AWS Migration Competency Status

*CloudChomp's CC Analyzer collaboration platform achieves Amazon Web Services (AWS) Migration Competency status*

HOUSTON, TX, 77042, December 4, 2019

/EINPresswire.com/ -- CloudChomp, Inc., announced today that its [CC Analyzer](#) collaboration platform achieved the Amazon Web Services (AWS) Migration Competency status. This designation recognizes that CloudChomp's CC Analyzer provides deep expertise to organizations during their migration planning stages by showing customers a reliable TCO analysis coupled with a migration roadmap of their workloads during their pre-migration assessment.

Achieving the AWS Migration Competency differentiates CloudChomp, Inc. as an AWS Partner

“

CloudChomp prides itself in providing organizations with answers to 'tip of the spear' AWS migration challenges.”

*David Pulaski*

Network (APN) member that provides specialized demonstrated technical proficiency and proven customer success with specific focus on workloads based on Assessment – Pre-migration assessment of assets to migrate and total cost of ownership (TCO); with functional subcategories of discovery, healthcheck, refactoring, security and compliance assessment, and benchmarking. To receive the designation, APN Partners must possess deep AWS expertise and deliver solutions seamlessly on

AWS.

“Having performed hundreds of AWS Cloud Migration Assessments, CloudChomp is happy to have earned the AWS Migration Competency,” said David Pulaski, CEO of CloudChomp. He continued, “gaining this Competency cements our commitment to AWS and continued investment in tooling to improve customer outcomes with respect to speed, cost, and reduced complexity.”

AWS is enabling scalable, flexible, and cost-effective solutions from startups to global enterprises. To support the seamless integration and deployment of these solutions, AWS established the [AWS Competency Program](#) to help customers identify Consulting and Technology APN Partners with deep industry experience and expertise.

CC Analyzer identifies and mitigates financial risk as the first step in the migration process. It is an agent-less financial analysis tool, providing detailed 1ClickTCO™ and expert level AWS pricing estimate based on infrastructure and performance statistics, in-app license manager for SQL server and Windows licenses to assist with license migration planning, application discovery, dependency mapping and an SOW calculator. CC Analyzer is a collaborative, dynamic data warehouse and planning tool for re-hosting, re-platforming and re-architecting on premises assets to run on AWS.

About CloudChomp, Inc.

CloudChomp, Inc. is a cloud migration tools company, helping organizations take a bite out of 21st Century Computing and IT Costs, turning bits and bytes into dollars and cents. It was founded with the explicit mission of accelerating right-sized migration to Amazon Web Services and eliminating the waste associated with manual and expensive assessment processes and the need for multiple tools. The platform is built on and highly optimized for Amazon Web Services. The company is founded by two veteran software executives who have built and created exits for four other software companies.
