

Sans Souci Rehabilitation and Nursing Center Unveils Completion of State-of-the-Art Patient Training Gymnasium

YONKERS, NEW YORK, UNITED STATES , November 27, 2019 /

EINPresswire.com/ -- Sans Souci Rehabilitation and Nursing Center recently unveiled the completion of their newly-renovated, state-of-the-art patient training gymnasium to the local community in an exclusive ribbon cutting ceremony.

The event welcomed community dignitaries, including members of Congress, healthcare executives, and renowned clinicians in a signature showcase of the center's rehabilitation suite. The training center at Sans Souci features equipment that specializes in physical and occupational rehabilitation services for post-acute patients healing from surgery or illness.

Patients enrolled in skilled rehabilitation services at Sans Souci have the opportunity to participate in tailored therapy sessions. Sans Souci's gymnasium features the LiteGait treadmill system, an advanced suspension system that assists variable weight-bearing patients in standing and walking without the fear of falling. The LiteGait system is ideal for patients recovering from stroke, neurological illness, joint replacements, amputations, and any type of deconditioning.

"Our new rehabilitation training space reaffirms our commitment in providing cutting-edge therapy services to those in our care," began Judah Zutler, Administrator of Sans Souci Rehabilitation and Nursing Center. "Our goal is to ensure that our patients are in receipt of an innovative experience that is enjoyed in a relaxing and serene environment."
