How to avoid the virus, how to identify symptoms of the virus and what do do if you think you have been exposed to the virus and much more from the CDC.

SAINT LOUIS, MO, UNITED STATES OF AMERICA, March 21, 2020 /EINPresswire.com/ -- THIS INFORMATION CAME FROM THE CENTERS FOR DISEASE CONTROL AND PREVENTION 'THE CDC'.

[Coronavirus Coloring Book](#) details basics and information regarding this new and rare virus. Including how to avoid the virus, how to identify symptoms of the virus and what do do if you think you have been exposed to the virus and much more from the CDC. Corona viruses are a large family of viruses that are common in many different species of animals. It was originally believed the virus was transmitted via animal-to-person since the original outbreak and now the virus has begun spreading from person-to-person. Originally determined the first cases were linked to a large seafood and live animal market located in Wuhan City where both live and dead animals are sold. These type markets are considered hot spots for cross-species transmission of viruses.
