

Ensunet Technology Group Officially Supported More Than \$11.6 Billion in M&A Activity

Ensunet Technology Group is proud to announce that it has supported mergers and acquisition deals that total \$11.6 billion.

SAN DIEGO, CA, USA, November 17, 2020 /EINPresswire.com/ -- Ensunet Technology Group, a San Diego-based premiere provider of vendor-agnostic enterprise IT services, is proud to announce that it has supported mergers and acquisition deals that total \$11.6 billion. It is a remarkable milestone that demonstrates the company's dedication to providing trusted, efficient, and transparent M&A consulting for Corporate Strategics and Private Equity.

Ensunet has been in the IT post-merger integrations (PMI) sector for over five years. It has been involved in planning, organizing, and availing the necessary resources to facilitate successful acquisitions, from million- to billion-dollar mergers. In October, Ensunet Technology Group was involved in a global M&A engagement valued at over \$7.6 billion.

"This is an important achievement for Ensunet Technology Group and the involved parties in this M&A engagement," says Paul Robinson, CEO of Ensunet Technology Group. "It has empowered our company, helping us to render our quality IT PMI services to globally-recognized companies. This serves as an important milestone in our company's evolving history."

Ensunet understands the IT risks involved in large acquisitions. Several factors need to be considered to ensure that the process runs seamlessly to prevent data exfiltration, systems breaches, and interoperability issues which are impediments to speed and realizing M&A synergies. As an IT and M&A specialist, Ensunet ensures rapid and cost-effective integration. The company also provides consultation services to M&A advisors to help them render better PMI services to their clients.
