

Baby Blendy Slashes Prices of its Anti-Colic Portable Baby Bottle Blender Bundle Kits

The creators of a new bottle blender that mixes baby formula or breast milk in seconds has slashed its prices.

MIAMI LAKES, FLORIDA, UNITED STATES, January 13, 2021 /EINPresswire.com/ -- Just in time for the holidays, representatives with Florida-based [Baby Blendy LLC](#) today announced that it has slashed the prices of its [anti-colic portable baby bottle blender bundle kits](#).

Osmay Gonzalez, spokesperson for Baby Blendy LLC, a member of the Juvenile Products Manufacturers Association, explained that the company has reduced the price on several of its anti-colic portable baby bottle blender [bundle kits](#). Those include:

- Bundle (0-3 M) Elite has been reduced from the regular price of \$167.50 to now \$150.75.
- Bundle (3-6 M) Elite has been cut from \$151.55 to now \$136.40.
- Bundle (6-12 M) Elite is on sale from the normal price of \$161.50 to now \$113.05.
- Bundle (12+ M) Elite price has been slashed from \$175.40 to now \$157.86.

Baby Blendy, which has been awarded the Iron Design Award for its Baby Bottle Design, is the creator of a doctor-recommended, anti-colic portable baby bottle blender that contains a mixer inside, which mixes any formula milk and also rice cereal and oatmeal cereal, which are thicker formula additives.

Gonzalez explained that the Baby Blendy Baby Bottle, which also now converts into a sippy cup, is easy to use, it snaps on to use, it snaps off to clean, it has an easy-to-grip, non-slip, and is designed for little hands.

As for Baby Blendy's bundle kits, customers' purchase includes three eight-ounce Baby Blendy Bottles with (Level Two) Medium Flow Nipple (3-6 Months old); Two additional (Level Two) Medium Flow Nipples (Three-Six Months old); Three Extra Replacement Monkey Mixers; Battery-

Powered Blender Base; Rechargeable Battery, and a USB Charging Cable (2.0 Micro type B).

Gonzalez noted that the Baby Blendy, which has also been awarded the Parents Pick Award (<https://jpmashow.org/parents/voting>), Family's Choice Award (<http://www.familychoiceawards.com/family-choice-awards-winners/baby-blendy/>); Design Award (<https://competition.adesignaward.com/gooddesign.php?ID=79822>), and Baby and Children's Products Award (<https://babyandchildrensproductnews.com/>), minimizes any baby's risk of swallowing air, thereby reducing post-feeding discomforts. The product thoroughly blends and mixes all chunks of the formula, ensuring that the baby receives all of the nutrients he or she should receive.

The process of using this new, revolutionary product is simple, company representatives say.

"Simply add formula or breast milk and push the button and the magic begins as the blender mixes, creating a powerful cyclone swirl that does all the mixing for you, hands-free, which helps reduce foaming and air bubbles within the milk," Gonzalez stressed, before adding, "When breast milk is stored, the milk separates into layers, fats will rise to the top. Our bottle will help mix your baby's breast milk thoroughly. This baby bottle is ideal for use when on the go or at home to fix your baby a bottle of milk with the solution being thoroughly blended effortlessly."
