At AEGIS, we work with our clients to identify risks and propose practical alternatives. Our focus is to get to the best answer for YOUR organization. We are an agnostic alternative to firm's who have formed vendor alliances that could have an impact on their business recommendations. With AEGIS, our advice is truly independent of vendor conflicts.

The word "AEGIS" means doing something with the protection, backing, or support of a particular person or organization. In classical art and mythology, AEGIS was an attribute of Zeus and Athena (or their Roman counterparts Jupiter and Minerva) usually represented as a shield.

We have adapted this concept with our solutions and client service – centering on the Target Operating Model (TOM) framework as an improvement program guide.

This is who we are. This is what we do.
