Impact And Recovery*

LONDON, GREATER LONDON, UK,
September 14, 2021 /
EINPresswire.com/ -- According to the
new market research report

'Emergency And Other Relief Services

Global Market Report 2021: COVID-19 Impact And Recovery' published by The Business Research Company, the [emergency and other relief services market](#) is expected to grow from \$73.22 billion in 2020 to \$82.42 billion in 2021 at a compound annual growth rate (CAGR) of 12.6%. The growth is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach \$113.83 billion in 2025 at a CAGR of 8.4%. The increasing support from large corporations and organizations in the form of funds, grants or programs is expected to drive the growth of the global emergency and other relief services market.

The emergency and other relief services market consists of the revenues from emergency and other relief services and related goods by entities (organizations, sole traders and partnerships) that provide food, shelter, clothing, medical relief, resettlement, and counseling to victims of domestic or international disasters or conflicts (e.g., wars). Only goods and services traded between entities or sold to end consumers are included.

Trends In The Global Emergency And Other Relief Services Market

Organizations in the emergency and other relief services market are integrating technology in their services for faster response and better reachability. For instance, in 2018, the American Red

Cross of Alaska has used the RC view and RC Collect applications that help streamline some of its procedures. The use of RC View to help dispatch Disaster Action Teams (DAT) to emergencies and RC Collect for collecting information during damage assessments of homes and property after the disasters have significantly reduced response times and streamlined data collection.
