

Newborn Screening Market Report 2021-26: Size, Share, Trends, Scope, Demand

According to the latest report by IMARC Group, The global newborn screening market to grow at a CAGR of around 9% during 2021-2026.

SHERIDAN, WYOMING, UNITED STATE, October 13, 2021 /EINPresswire.com/ -- According to the latest report by IMARC Group "[Newborn Screening Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2021-2026](#)", The global newborn screening market exhibited moderate growth during 2015-2020. Looking forward, IMARC Group expects the market to grow at a CAGR of around 9% during 2021-2026.

Newborn screening refers to the preventive healthcare program that identifies the risk of rare and severe medical conditions in babies. It is essential to test babies at birth to determine conditions, such as physical disabilities, brain damage, and other life-threatening diseases, which can affect their normal development. Newborn screening allows early intervention, which aids in the elimination and reduction of morbidity, mortality, and disability in affected newborns.

Note: We are regularly tracking the direct effect of COVID-19 on the market, along with the indirect influence of associated industries. These observations will be integrated into the report.

Market Trends:

The global newborn screening market is primarily driven by the growing neonatal population and the increasing instances of congenital diseases in newborns. Besides this, various organizations, such as the World Health Organization (WHO), Center for Disease Control (CDC), and Healthy Newborn Network, are educating parents regarding the disorders and their diagnostic procedures. This helps prevent death in babies within the first month of their birth due to lack of skilled care and screening. Furthermore, governments in different countries are also funding programs introducing newborn screening and new treatment options, which is further expected to influence the market growth.

Breakup by Product:

Instruments

Reagents

Breakup by Technology:

Tandem Mass Spectrometry

Pulse Oximetry

Enzyme Based Assay

DNA Assay

Electrophoresis

Others

Breakup by Test Type:

Dry Blood Spot Test

CCHD

Hearing Screen

Market Breakup by Region:

North America (United States, Canada)

Asia Pacific (China, Japan, India, South Korea, Australia, Indonesia, Others)

Europe (Germany, France, United Kingdom, Italy, Spain, Russia, Others)

Latin America (Brazil, Mexico, Others)

Middle East and Africa

Competitive Landscape with Key Player:

Agilent Technologies Inc.

Baebies Inc.

Bio-RAD Laboratories Inc.

Chromsystems Instruments & Chemicals GmbH

Danaher Corporation

Masimo Corporation

Medtronic plc

Natus Medical Incorporated

Perkinelmer Inc.

RECIPE Chemicals + Instruments GmbH

Thermo Fisher Scientific Inc.

Trivitron Healthcare

Waters Corporation.
