## Key Trends In The Leather And Allied Products Market

Technological advances in the field of wireless technologies have enabled leather product manufacturers to integrate wearable technology into their products. Leading fashion designers are partnering with technology firms to produce trendy wearables and luxury products as the market is adopting this concept broadly.

## Overview Of The Hormonal Contraceptives Market

The leather and allied products market consists of sales of leather and allied products by entities (organizations, sole traders and partnerships) that produce leather and allied products. Leather and allied product producers transform hides into leather by tanning or curing and fabricating the leather into products for final consumption, and/or produce similar products from other materials, including products (except apparel) made from "leather substitutes" such as rubber, plastics, or textiles. Rubber footwear, textile luggage, and plastic purses or wallets are examples of "leather substitute" products included in this market.
